Welcome by Kader. Introductions.

Overview of the meeting, context writing the planning process:

Kader reviewed the process progression. Current stage: refine ten year goals and ensure targeting. Next stage: build implementation tables and pull in strategies.

Report from the Policy Committee meeting:

Kader reported that the Policy Committee adopted the vision statement.

Policy Committee reviewed the issue statements, DFC, and ten year goals and gave a “non-binding thumbs up.”

Review of Policy Committee edits – discussion. Agreement that desired outcome #2 of Surface Water Concern #3 will be tabled for later.

Introduction to targeting process for Surface Water goals:

Blackburn reviewed the content development process

Ask the questions?

- Does this make sense?
- Does the method of evaluation seem appropriate?
- Is the goal targeted? If not, what does it need?
- What are you most interested in seeing happen in your area to achieve goals?

Small group work time: Surface Water 1, 2, and 3

Next Steps:

Keep in mind the four questions above for the other resource areas (ground water and natural resources) that will be discussed in the next two meetings.

Break out into small groups to help move the planning process ahead.
